## Morningstar Investment Management LLC Analysis

We are placing Invesco Oppenheimer International Growth on watch for performance. This fund has struggled recently, most notably in 2018 when it fell further than its category peers and benchmark index. In the first half of 2019, the fund outpaced its prospectus benchmark and kept pace with its peers in the Foreign Large Growth Morningstar Category, but it could take some time for this fund to regain its standings in the category. There's reason for hope, as manager George Evans has led the effort here for over twenty years and long-term results are still competitive. We'll be watching for better relative performance in the coming quarters.

## Morningstar Investment Management LLC Analysis

It's been more than a year since this fund experienced a concerning slew of personnel changes. The lead portfolio manager retired from T. Rowe Price at the end of 2018. Then, in early 2019, two longtime portfolio managers and contributors to the fund retired. In May of 2019, the former head of fixed income, Ted Wiese, retired. And the head of high yield, Mark Vaselkiv, signaled his intention to step back from his role in January of 2020. We placed the fund on watch due to this confluence of events. Since we placed the fund on watch, its performance has been concerning. In fact, as of March 31, 2020, its return in the previous 12 months trailed 95% of its peers in the intermediate core bond Morningstar Category. Longer term returns are also poor. We are now removing this fund from fiduciary coverage.

## Morningstar Investment Management LLC Analysis

It's been more than a year since this fund experienced a concerning slew of personnel changes. The lead portfolio manager retired from T. Rowe Price at the end of 2018. Then, in early 2019, two longtime portfolio managers and contributors to the fund retired. In May of 2019, the former head of fixed income, Ted Wiese, retired. And the head of high yield, Mark Vaselkiv, signaled his intention to step back from his role in January of 2020. We placed the fund on watch due to this confluence of events. Since we placed the fund on watch, its performance has been concerning. In fact, as of March 31, 2020, its return in the previous 12 months trailed 95% of its peers in the intermediate core bond Morningstar Category. Longer term returns are also poor. We are now removing this fund from fiduciary coverage.
