## Morningstar Investment Management LLC Analysis

We are placing Invesco Global on watch due to concerns about the fund's deteriorating performance. After posting below-median results in 2020 and 2021, the fund posted a 2022 loss that was 400 basis points worse than the category average. That outside loss leads us to put the fund on watch while we monitor the manager's ability to get performance back on track.

## Morningstar Investment Management LLC Analysis

Although this fund is led by an experienced management team that has guided the fund through a variety of return extremes (including positive ones), we have lost confidence in this fund's worthiness for this program. A variety of missteps over the course of multiple market cycles and an inconsistent record regarding risk management are significant weaknesses here. Although the fund's long-term returns appear strong relative to peers, the fund's Morningstar Risk rating is High and performance consistency has been weak—indeed, the fund's trailing three- and five-year returns land in the category's bottom quartile.
