Performance: The fund has finished in the Global Allocation category's top three quartiles in 9 of the 10 years it's been in existence.

Management: The fund's management has been in place for 7.5 years.

imes Style: The fund has landed in its primary style box — Large Blend — 56.25 % of the time over the past three years

Net Expense: The fund's expense ratio of 0.84 is 25% lower than the Global Allocation category average.

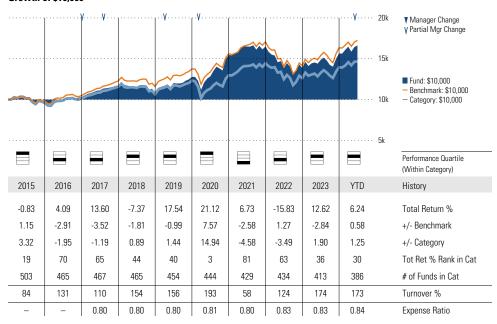

Morningstar Investment Management LLC Analysis

This allocation fund fails the style consistency screen because the equity portion of the fund can move within the Stylebox at times. This is not surprising, given that part of the equity bucket is dedicated to a thematic sleeve, that can lead to different parts of the stock market depending on which themes are in play. But, as a broad, global allocation fund, we are not concerned with this screen failure.
