Quantitative Screens

- Performance: The fund has finished in the High Yield Bond category's top three quartiles in 8 of the 10 years it's been in existence.
- Management: The fund's management team has been in place for less than three years.

Style Consistency is not calculated for Fixed Income funds.

- Net Expense: The fund's expense ratio of 0.12 is 86.21% lower than the High Yield Bond category average.

Morningstar Investment Management LLC Analysis

We are taking the fund off watch as manager Liz Shortsleeve of Wellington continues to execute well for her two-thirds portion of the mandate. Shortsleeve has been a named managed since August 2022 and has continued to implement the team's approach consistently, albeit with a slightly less defensive posture than predecessor Michael Hong. While she's upped the risk profile of their portion of the portfolio slightly, it's now closer to being in line with the benchmark, and risk has been managed thoughtfully. She's also backed by a deep bench of experts at Wellington, which gives us further conviction in the team's ability to continue to deliver solid results for its portion of the fund. The other sleeve, managed by Vanguard since August 2022, has a shorter track record but contributes less credit risk than Wellington's sleeve, so its relatively lower-risk profile means there is less room for major blowups. We are comfortable with both managers and their respective teams' ability to deliver solid results here for investors.

Morningstar Investment Management LLC Analysis

We are placing Vanguard International Value on watch due to a change in subadvisor. Vanguard announced on June 16th that they had replaced Lazard as a subadvisor with Altrinsic Global Investors, effectively immediately, due to performance concerns. Altrinsic, ARGA, and Sprucegrove will each manage 1/3 of the portfolio. We are placing the fund on watch while we monitor the new subadvisor mix.

Morningstar Investment Management LLC Analysis

This fund fails our style consistency screen as the fund has drifted into the large-blend portion of the Morningstar Style Box. The drift towards blend is not unexpected as the fund's subadvisor lineup has shifted in recent years to managers that run more core-oriented strategies and lower exposure to deep-value oriented managers. We are not concerned with this screen failure but will continue to monitor the fund's strategy and category assignment.
