Quantitative Screens

Performance: The fund has finished in the Inflation-Protected Bond category's top three quartiles in 10 of the 10 years it's been in existence.

Management: The fund's management has been in place for 7.3 years.

Style Consistency is not calculated for Fixed Income funds.

Net Expense: The fund's expense ratio of 1.09 is 60.29% higher than the Inflation-Protected Bond category average.

Morningstar Investment Management LLC Analysis

This fund fails our expense screen with fees that are higher than the broad category average. Plan costs are sometimes wrapped into fund fees, but because costs are predictive of a fund's future relative performance, we would still like to see lower overall expenses here.

✓ Net Expense: The fund's expense ratio of 0.26 is 35% lower than the Ultrashort Bond category average.

Morningstar Investment Management LLC Analysis

This fund fails our performance consistency screen. Its relative performance versus typical peers in the ultrashort bond category has struggled, partly due to its strict adherence to investing in government securities, which have lagged credit instruments. We believe those results are consistent with the strategy and do not merit putting the fund on watch at this time.

Morningstar Investment Management LLC Analysis

Performance at this analyst-driven fund has fallen off in recent years with three calendar years of bottom-third performance rankings in its category, and underperformance again so far in the first half of 2025. It has lagged the average category peer by two percentage points annualized over the trailing three-year period and lagged its benchmark by 3.5 percentage points over that time. While the fund consistently exhibits lower risk metrics, this stretch of recent underperformance is weighing on the longer-term performance record, and we are placing the fund on watch.

Morningstar Investment Management LLC Analysis

We placed Metropolitan West Total Return Bond on watch due to a major leadership change at TCW. The most significant changes are that veteran portfolio managers Laird Landmann and Stephen Kane will retire at the end of 2023 and 2024, respectively. These departures have the potential to materially affect this and several other TCW and Metropolitan West strategies, and we will be forming a more detailed opinion about these funds' prospects in coming quarters.

Morningstar Investment Management LLC Analysis

We are placing Vanguard International Value on watch due to a change in subadvisor. Vanguard announced on June 16th that they had replaced Lazard as a subadvisor with Altrinsic Global Investors, effectively immediately, due to performance concerns. Altrinsic, ARGA, and Sprucegrove will each manage 1/3 of the portfolio. We are placing the fund on watch while we monitor the new subadvisor mix.
