Quantitative Screens

Performance: The fund has finished in the Commodities Broad Basket category's top three quartiles in 6 of the 9 years it's been in existence.

Management: The fund's management has been in place for 16.26 years.

Style Consistency is not calculated for Fixed Income funds.

Net Expense: The fund's expense ratio of 0.85 is 10.53% lower than the Commodities Broad Basket category average.

Morningstar Investment Management LLC Analysis

We are removing the DWS Enhanced Commodity Strategy from fiduciary coverage due to persistent underperformance. Over the prior decade the fund has only outperformed the median peer in the commodities broad-basket Morningstar Category in two calendar years and matched it in two others. As a result, trailing one-, three-, five-, and 10-year returns rank in the bottom quartile. As a result, we have lost conviction in the fund and are removing it from fiduciary coverage.

We are placing Vanguard International Value on watch due to a change in subadvisor. Vanguard announced on June 16th that they had replaced Lazard as a subadvisor with Altrinsic Global Investors, effectively immediately, due to performance concerns. Altrinsic, ARGA, and Sprucegrove will each manage 1/3 of the portfolio. We are placing the fund on watch while we monitor the new subadvisor mix.
