## Morningstar Investment Management LLC Analysis

We are placing Invesco Global on watch due to concerns about the fund's deteriorating performance. After posting below-median results in 2020 and 2021, the fund posted a 2022 loss that was 400 basis points worse than the category average. That outside loss leads us to put the fund on watch while we monitor the manager's ability to get performance back on track.

## Morningstar Investment Management LLC Analysis

We are placing Western Asset Core Bond on watch due to persistent troubles with performance and risk management. The fund has experienced some periods of large losses, with 2022's nearly 17% loss looming large. The fund's Morningstar Risk rating is now High, and while some funds are able to deliver high returns for the bumpy ride, this fund has not been able to do so for quite some time. We are placing this fund on watch as we assess its place on the approved list.
