## Morningstar Investment Management LLC Analysis

This fund fails the style screen as the portfolio straddles both the mid- and small-cap sections of the style box. This is a function of the index that it tracks, the S&P MidCap 400 Index, which has slightly higher small cap exposure relative to category peers. It still supplies adequate mid-cap exposure. This fund also fails the manager tenure screen because of manager changes, but we are generally not concerned about manager changes for index funds.
