Morningstar Investment Management LLC Analysis

We are placing Invesco Global on watch due to concerns about the fund's deteriorating performance. After posting below-median results in 2020 and 2021, the fund posted a 2022 loss that was 400 basis points worse than the category average. That outside loss leads us to put the fund on watch while we monitor the manager's ability to get performance back on track.

Morningstar Investment Management LLC Analysis

We are placing Metropolitan West Total Return Bond on watch due to a major leadership change at TCW. The most significant changes are that veteran portfolio managers Laird Landmann and Stephen Kane will retire at the end of 2023 and 2024, respectively. These departures have the potential to materially affect this and several other TCW and Metropolitan West strategies, and we will be forming a more detailed opinion about these funds' prospects in coming quarters.

Morningstar Investment Management LLC Analysis

We are placing PIMCO High Yield on watch due to the departure of longtime portfolio manager Andrew Jessop. Another comanager, Amit Agrawal, left earlier in 2023. The strategy in place is solid but the management configuration is new here, and it will take time for us to assess the fund under the new current management structure.
