This fund fails our expense screen with fees that are higher than the broad category average. Plan costs are sometimes wrapped into fund fees, but because costs are predictive of a fund's future relative performance, we would still like to see lower overall expenses here.

## Morningstar Investment Management LLC Analysis

This fund fails the style screen as the portfolio straddles both the mid- and small-cap sections of the style box. This is a function of the index that it tracks, the S&P MidCap 400 Index, which has slightly higher small cap exposure relative to category peers. It still supplies adequate mid-cap exposure.
