Morningstar Investment Management LLC Analysis

We are placing BlackRock Inflation Protected Bond on watch following the abrupt departure of its lead and longest-tenured manager, David Rogal. While the fund is on watch, we'll assess the ability of the current team--comanagers Harrison Segall, Johan Sjorgren, who joined the fund in February 2024, and newly appointed comanager Russell Brownback--to deliver competitive risk-adjusted results comparable to those the fund achieved during Rogal's tenure.

- Management: The fund's management has been in place for 14.76 years.

Morningstar Investment Management LLC Analysis

This fund fails our expense screen with fees that are higher than the broad category average. Plan costs are sometimes wrapped into fund fees, but because costs are predictive of a fund's future relative performance, we would still like to see lower overall expenses here.

Morningstar Investment Management LLC Analysis

Despite the fund's higher quality focus being out of favor, the fund has underperformed by a wider margin than we would like to see. We're proposing to put on watch to monitor. The fund's approach focuses on identifying cash generative companies to invest in while trying to mitigate downside risk. This means it typically shines in down markets like 2022 but can lag in rallies like it did in 2023 and 2024. It's continued to struggle to keep pace with peers YTD and this period of underperformance has started to weigh on longer term results with the fund landing in the small value category's bottom quintile over the trailing three- and five-year periods.
