Morningstar Investment Management LLC Analysis

This fund fails our expense screen with fees that are higher than the broad category average. Plan costs are sometimes wrapped into fund fees, but because costs are predictive of a fund's future relative performance, we would still like to see lower overall expenses here.

Performance: The fund has finished in the Mid-Cap Blend category's top three quartiles in 10 of the 10 years it's been in existence.

Management: The fund's management has been in place for 3.43 years.

Net Expense: The fund's expense ratio of 0.5 is 40.48% lower than the Mid-Cap Blend category average.

Morningstar Investment Management LLC Analysis

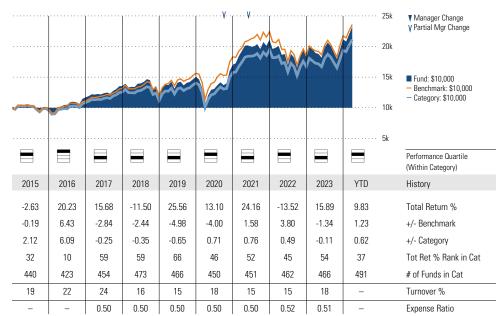

This fund fails the style screen as the portfolio straddles both the mid- and small-cap sections of the style box. This is a function of the index that it tracks, the S&P MidCap 400 Index, which has slightly higher small cap exposure relative to category peers. It still supplies adequate mid-cap exposure.
