This fund fails our expense screen with fees that are higher than the broad category average. Plan costs are sometimes wrapped into fund fees, but because costs are predictive of a fund's future relative performance, we would still like to see lower overall expenses here.

Morningstar Investment Management LLC Analysis

We are placing the Brandywine Global Opportunities Bond fund on watch due to the degree of underperformance in 2024 and the overall risk profile of the fund. This is a higher risk strategy, thanks to inclusion of EMD and EM currency, and in 2024 ranked in the bottom 5% of Global Bond fund peers. Risk is persistently higher than peers, in the form of standard deviation and drawdown, so, coupled with the weakness in 2024, we are placing the strategy on watch whilst we assess the overall risk/return profile.

✗ **Performance:** The fund has finished in the Ultrashort Bond category's top three quartiles in 6 of the 10 years it's been in existence.

✔ **Management:** The fund's management has been in place for 27.74 years.

Style Consistency is not calculated for Fixed Income funds.

✔ **Net Expense:** The fund's expense ratio of 0.26 is 33.33% lower than the Ultrashort Bond category average.

Morningstar Investment Management LLC Analysis

This fund fails our performance consistency screen. Its relative performance versus typical peers in the ultrashort bond category has struggled, partly due to its strict adherence to investing in government securities, which have lagged credit instruments. We believe those results are consistent with the strategy and do not merit putting the fund on watch at this time.
