Morningstar Investment Management LLC Analysis

We are placing the Brandywine Global Opportunities Bond fund on watch due to the degree of underperformance in 2024 and the overall risk profile of the fund. This is a higher risk strategy, thanks to inclusion of EMD and EM currency, and in 2024 ranked in the bottom 5% of Global Bond fund peers. Risk is persistently higher than peers, in the form of standard deviation and drawdown, so, coupled with the weakness in 2024, we are placing the strategy on watch whilst we assess the overall risk/return profile.

Morningstar Investment Management LLC Analysis

This fund fails our style consistency screen due to portfolio drift into the growth portion of the Morningstar Style Box. However, with Morningstar's recent methodology update addressing this bias, the portfolio now aligns with its intended style classification. As a result, we are not concerned about the screen failure. The fund also fails our manager tenure screen, but given its index-based approach, we are similarly not concerned with this screen result.

Morningstar Investment Management LLC Analysis

This fund fails our style consistency screen as the fund has drifted into the large-blend portion of the Morningstar Style Box. The drift towards blend is not unexpected as the fund's subadvisor lineup has shifted in recent years to managers that run more core-oriented strategies and lower exposure to deep-value oriented managers. We are not concerned with this screen failure but will continue to monitor the fund's strategy and category assignment.
