Morningstar Investment Management LLC Analysis

We are placing this fund on watch due to the upcoming departure of Joe Fath at the end of September 2025, to be replaced by James Stillwagon, who was added as comanager at the beginning of January 2025. Stillwagon has five years experience running the T. Rowe Price Communication and Technology fund to strong risk-adjusted returns, but this is a broader large-growth mandate, and we are placing the fund on watch while we monitor for any changes to the process as he ascends to sole manager.

Quantitative Screens

✗ **Performance:** The fund has finished in the Large Blend category's top three quartiles in 6 of the 10 years it's been in existence.

✗ **Management:** The fund's management team has been in place for less than three years.

✓ **Style:** The fund has landed in its primary style box — Large Blend — 81.82 % of the time over the past three years.

✓ **Net Expense:** The fund's expense ratio of 0.29 is 59.72% lower than the Large Blend category average.

Morningstar Investment Management LLC Analysis

The fund fails the manager tenure screen due to a late-2023 departure. However, the new lead manager has been transitioning into the lead position over the past two years and pursues the fund's long-running strategy. This fund also fails our performance consistency screen. The team's conservative approach is reasonable and we maintain conviction in the fund.

Morningstar Investment Management LLC Analysis

This fund fails our style consistency screen as the fund has drifted into the large-blend portion of the Morningstar Style Box. The drift towards blend is not unexpected as the fund's subadvisor lineup has shifted in recent years to managers that run more core-oriented strategies and lower exposure to deep-value oriented managers. We are not concerned with this screen failure but will continue to monitor the fund's strategy and category assignment.
