Morningstar Investment Management LLC Analysis

Performance at this analyst-driven fund has fallen off in recent years with three calendar years of bottom-third performance rankings in its category, and underperformance again so far in the first half of 2025. It has lagged the average category peer by two percentage points annualized over the trailing three-year period and lagged its benchmark by 3.5 percentage points over that time. While the fund consistently exhibits lower risk metrics, this stretch of recent underperformance is weighing on the longer-term performance record, and we are placing the fund on watch.

Morningstar Investment Management LLC Analysis

Neuberger Berman Real Estate fund has struggled with weak relative performance since 2022. Although underperformance in those years wasn't dramatic, the cumulative effect has been significant and the fund's bottom-quintile performance for the first three quarters of 2025 has further dragged down its trailing return rankings. We are placing the fund on watch while we assess the team's ability to deliver competitive risk-adjusted results.
