Morningstar Investment Management LLC Analysis

We are placing the Brandywine Global Opportunities Bond fund on watch due to the degree of underperformance in 2024 and the overall risk profile of the fund. This is a higher risk strategy, thanks to inclusion of EMD and EM currency, and in 2024 ranked in the bottom 5% of Global Bond fund peers. Risk is persistently higher than peers, in the form of standard deviation and drawdown, so, coupled with the weakness in 2024, we are placing the strategy on watch whilst we assess the overall risk/return profile.

- ✔ **Net Expense:** The fund's expense ratio of 0.6 is 31.82% lower than the Large Growth category average.

Morningstar Investment Management LLC Analysis

We are placing Brown Advisory Sustainable Growth on watch due to performance concerns. The fund had lagged in 2024 and 2025, which was broadly as expected given its underweight to the "Magnificent 7" stocks and other mega cap growth names that performed strongly over that period. However, the fund also underperformed peers substantially in the first quarter of 2026, when high growth and Magnificent 7 names underperformed. Subsequently, our expectations for market conditions in which the fund will outperform have been called into question, and we are placing the fund on watch while we monitor management's ability to get it back on track.
