Morningstar Investment Management LLC Analysis

We are placing Brown Advisory Sustainable Growth on watch due to performance concerns. The fund had lagged in 2024 and 2025, which was broadly as expected given its underweight to the “Magnificent 7” stocks and other mega cap growth names that performed strongly over that period. However, the fund also underperformed peers substantially in the first quarter of 2026, when high growth and Magnificent 7 names underperformed. Subsequently, our expectations for market conditions in which the fund will outperform have been called into question, and we are placing the fund on watch while we monitor management’s ability to get it back on track.

Morningstar Investment Management LLC Analysis

We are removing the DWS Enhanced Commodity Strategy from fiduciary coverage due to persistent underperformance. Over the prior decade the fund has only outperformed the median peer in the commodities broad-basket Morningstar Category in two calendar years and matched it in two others. As a result, trailing one-, three-, five-, and 10-year returns rank in the bottom quartile. As a result, we have lost conviction in the fund and are removing it from fiduciary coverage.
