✓ Management: The fund's management has been in place for 3.75 years.

× Style: The fund has landed in its primary style box — Large Blend — 63.64 % of the time over the past three years.

Morningstar Investment Management LLC Analysis

We are placing Vanguard Dividend Growth on watch due to significant and persistent underperformance. The fund ranks in the bottom decile for 2023, 2024, and 2025, which has dragged down all trailing periods, including one-, three-, and five-year results. While the strategy's conservative approach has historically provided strong downside protection, such as top-decile performance in 2022's market pullback, it continues to lag in growth-driven markets and has underperformed even relative to other dividend-growth mandates. Given these challenges and its consistent shortfall versus its benchmark, we believe monitoring is warranted while recognizing the fund's quality-oriented approach may rebound in a market pullback.
