Morningstar Investment Management LLC Analysis

This fund's performance woes go beyond tougher peer comparisons and they merit more scrutiny. This fund was recently recategorized into the newly created intermediate core-plus bond Morningstar Category. This change made peer comparison's more challenging because funds in the new category have exposure to slightly more aggressive areas of the market that have generally fared well in recent history.

Morningstar Investment Management LLC Analysis

We are placing this fund on watch due to concerns about its fit for retirement plans and performance. In spite of its global-bond name, this fund's distinctive strategy is such that it has few comparable peers and does not fit particularly well in any Morningstar category. It had been categorized as a world bond fund and in August 2019 was recategorized to the nontraditional bond Morningstar Category. When the change occurred, we retained the fund under fiduciary coverage as we continued to review its role in retirement lineups and its performance characteristics. The fund has continued to provide inconsistent exposure to world bonds and its returns relative to both the world bond and nontraditional bond categories have been uneven, with low-ranking trailing returns.
