We are taking Invesco Global off watch. The strategy was placed on watch due to a combination of poor performance and increased levels of risk. While the portfolio remains concentrated, performance has seen a marked improvement and risk levels, as measured by the Morningstar Risk Rating, have moderated, and as a result we are comfortable taking the strategy off watch.

## Morningstar Investment Management LLC Analysis

We have placed Western Asset Core Bond on watch due to persistent troubles with performance and risk management. The fund has experienced some periods of large losses, with 2022's nearly 17% loss looming large. The fund's Morningstar Risk rating is now High, and while some funds are able to deliver high returns for the bumpy ride, this fund has not been able to do so for quite some time. We are placing this fund on watch as we assess its place on the approved list.
