Morningstar Investment Management LLC Analysis

We are placing this fund on watch due to the upcoming departure of Joe Fath at the end of September 2025, to be replaced by James Stillwagon, who was added as comanager at the beginning of January 2025. Stillwagon has five years experience running the T. Rowe Price Communication and Technology fund to strong risk-adjusted returns, but this is a broader large-growth mandate, and we are placing the fund on watch while we monitor for any changes to the process as he ascends to sole manager.

Morningstar Investment Management LLC Analysis

We are placing Vanguard Dividend Growth on watch due to significant and persistent underperformance. The fund ranks in the bottom decile for 2023, 2024, and 2025, which has dragged down all trailing periods, including one-, three-, and five-year results. While the strategy's conservative approach has historically provided strong downside protection, such as top-decile performance in 2022's market pullback, it continues to lag in growth-driven markets and has underperformed even relative to other dividend-growth mandates. Given these challenges and its consistent shortfall versus its benchmark, we believe monitoring is warranted while recognizing the fund's quality-oriented approach may rebound in a market pullback.

Morningstar Investment Management LLC Analysis

This fund fails our style consistency screen as the fund has drifted into the large-blend portion of the Morningstar Style Box. The drift towards blend is not unexpected as the fund's subadvisor lineup has shifted in recent years to managers that run more core-oriented strategies and lower exposure to deep-value oriented managers. We are not concerned with this screen failure but will continue to monitor the fund's strategy and category assignment.
