Morningstar Investment Management LLC Analysis

We are placing this fund on watch for performance. While we expect the concentrated approach of longtime lead manager and firm founder Ron Baron, along with comanager Neal Rosenberg, to produce occasionally jagged performance patterns, the fund's recent underperformance is more extreme than we are accustomed to seeing. The fund experienced a nearly -12% loss through September-end 2025, while the category and index returned around 9%, and that follows two calendar years of bottom-quintile performance. Much of this year's poor results have been driven by losses in some of the fund's larger media and data-research holdings such as FactSet, Gartner, and MSCI. While the fund is on watch, we will monitor to see whether it can return to its historical levels of risk-adjusted return.
