Quantitative Screens

✗ Performance: The fund has finished in the Ultrashort Bond category's top three quartiles in 6 of the 10 years it's been in existence.

✔ Management: The fund's management has been in place for 28.58 years.

Style Consistency is not calculated for Fixed Income funds.

✔ Net Expense: The fund's expense ratio of 0.26 is 33.33% lower than the Ultrashort Bond category average.

Morningstar Investment Management LLC Analysis

This fund fails our performance consistency screen. Its relative performance versus typical peers in the ultrashort bond category has struggled, partly due to its strict adherence to investing in government securities, which have lagged credit instruments. We believe those results are consistent with the strategy and do not merit putting the fund on watch at this time.
